

STATEMENT

RARE EARTHS – OFFICIAL DECLARATION (REE)

Scope

This declaration applies to the product lines **cable glands**, **circular connectors** and **building technology** products of HUMMEL AG. It covers all products in these lines unless product-specific documentation states otherwise. The scope includes all products developed, manufactured, or placed on the market by HUMMEL AG within the mentioned product lines.

Principle

Based on the current state of knowledge, HUMMEL AG products do not intentionally contain rare earth elements (REE), including Terbium (Tb), Dysprosium (Dy), Samarium (Sm), Scandium (Sc), Yttrium (Y), Gadolinium (Gd), and Lutetium (Lu). Compliance with all applicable legal requirements is ensured.

Relevant Substances

Based on the information currently available, the following applies:

- // Due to impurities in the raw materials used, traces of REE may be detectable. These traces are not intentional and are below all known relevant thresholds.
- // Our raw materials are sourced from global supply chains, including China. These materials do not contain rare earth elements, and therefore are not subject to corresponding regulatory requirements.

Due Diligence

This declaration is based on supplier information, internal evaluations, and reasonable control measures. HUMMEL AG maintains regular contact with its suppliers to verify the REE-free status of materials and products. This declaration does not replace statutory technical documentation or analyses.

Validity

This declaration is valid at the time of issuance. Changes in materials, supply chains, or legal requirements may necessitate an update.

Liability

This declaration has been prepared to the best of our knowledge and based on information currently available from our suppliers. Liability for completeness or accuracy of this information is excluded to the extent permitted by law.
