

PRODUCT RANGE

DEFINITELY THE RIGHT CONNECTION

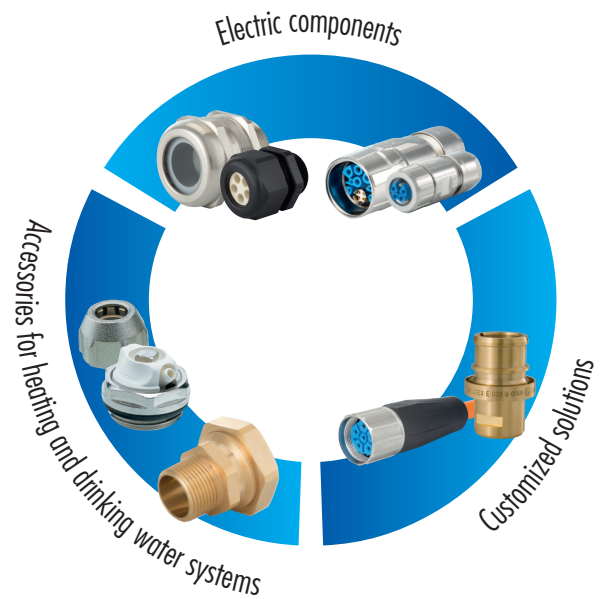

HUMMEL AG

HUMMEL AG is a renowned manufacturer of components for the electrical engineering and heating systems industry. The medium-sized family business stands for quality, precision, reliability and a strong service awareness. The large manufacturing depth with development, design, tool making, production, electroplating and installation from a single source offers best conditions for this. The company is internationally oriented and has 11 independent foreign subsidiaries. In addition there is a worldwide network of partners. This permits HUMMEL to supply customers all over the world in a quick and flexible manner with its solutions and products. A broad product range, a well experienced industry know how and a lot of experience characterise the family business.

The Product Range

- // Electric components
- // Customized solutions
- // Accessories for heating and drinking water systems

Electric components

Huge product portfolio for industrial application

HUMMEL offers a huge portfolio of electric components for industrial applications. Special features are the innovative technology and the use of high-quality materials. Therefore HUMMEL products have all necessary certificates and meet highest protection classes for use also in rough industrial environments.

Circular Connectors

- // Signal and Power connectors
- // Industrial Ethernet solutions
- // M 8 to M 40
- // Customizable and injection-molded versions

Cable Protection

- // Polyamide cable conduit
- // Plastic fittings

Cable Glands

- // Brass and stainless steel glands
- // Plastic glands
- // For hazardous areas
- // Hygienic design
- // EMC cable glands

Customized Solutions

Broad spectrum thanks to large production depth

Within the Customized Projects (CS) product segment, HUMMEL AG concentrates on the manufacture of special metal and plastic parts as well as cable assemblies according to customer requirements. With its modern machinery and many years of know-how, HUMMEL works for renowned manufacturers in the electronics, automotive, optoelectronics, mechanical engineering sectors and even for the manufacture of musical instruments.

Individual system solutions

- // Special metal and plastic parts
- // Surface treatment, refinement
- // Component assembly
- // Cable assembly according to customer requirements
- // Customized cable harnesses

Accessories for heating and drinking water systems

Innovative solutions for the plumbing and heating industry

For decades, HUMMEL has been a constant in the plumbing and heating industry. The products are widely known as problem solvers for all conceivable installation situations on the construction site. Heating fitters appreciate the easy installation, the high quality and innovative technology. HUMMEL problem solvers are almost indispensable for fitters when renovating heating systems.

Problem solvers

- // Steel tube adapter
- // Telescopic connections
- // Flexible radiator connections
- // Diverters

Drinking water solutions

- // Steel tube adapter
- // Compression fittings

Fittings

- // Venting / Draining valves
- // Terminal blocks
- // Thermostatic valves
- // Compression fittings

OEM

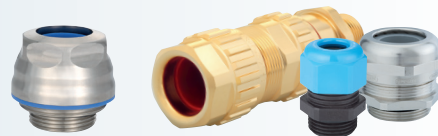

- // Customized solutions for the plumbing, heating and air-conditioning industry

PRODUCT RANGE

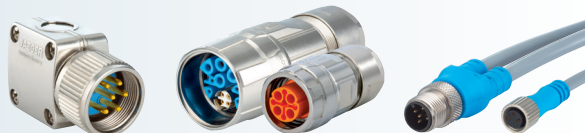

Cable Glands

Polyamide-, Brass- and Stainless Steel,
EMC-connections, Protection Ex e, Ex d, Ex ta

Circular Connectors

M 8 to M 40, INOX, TWILOCK, Industrial Ethernet,
Power, Signal, Hybrid-Connector, Moulded Cordsets

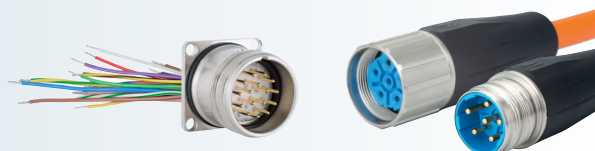

Conduit Systems

Corrugated Conduit Systems, Conduit Cable Glands,
combined Cable Glands, Accessories

Customized Solutions

Moulded Signal- and Power Circular Connectors,
Servo Cables, Special Metal and Plastic Parts

Accessories for Heating and Drinking Water Solutions

Problem Solvers, Venting, Draining Valves,
Fittings, Compression Fittings
